### Neuroscience 2016

# 第39回 日本神経科学太会 The 39th Annual Meeting of the Japan Neuroscience Society

# Call for Luncheon Seminar

Date: July 20 (Wed) - 22 (Fri), 2016

Venue: Pacifico Yokohama

The 39th Annual Meeting of the Japan Neuroscience Society / Neuroscience 2016

President: Atsushi Iriki

RIKEN Brain Science Institute

#### Greeting

#### be sound, brain and mind

Recently various "mental problems" have become a major interest in our society. To make our daily lives prosperous and happy, and to resolve and understand various problems we are facing, uncovering the mechanisms of the human mind is the major goal of neuroscience. This year the 39th Annual Meeting of the Japan Neuroscience Society and the 31st International Congress of Psychology will be held consecutively at the same venue. Under the theme of "be sound, brain and mind", top international and domestic researchers conducting the state-of-the-art neuroscience, together with Japan's next generation researchers, will take this as an opportunity to elucidate the mechanisms of the brain and mind through promotion of a wide range of neuroscience research fields, across clinical medicine and psychology, and to the molecular and cellular biological levels.

However, a gap still exists between the "mind" as a psychological phenomenon and the function of the "brain" as a biological organ. Because a human mind is unique and diverse, and changes through experience and one's life history, it matches poorly with the essence of modern natural science which pursues simple reductionism, reproducibility and universality. Notwithstanding, we all agree that our "mind" is produced by our "brain", and it is also human nature to pursue its understanding. Neuroscience has just reached a tipping point where it is within reach of lay people's expectations. We neuroscientists are trying to address it seriously.

In order to realize such an enterprise, it is necessary for researchers with different perspectives to face each other with mutual respect, and maintain active interactions; for example, assembling valid hypotheses and examining each one carefully through empirical experiments, and then feeding back the results to re-examine the original hypotheses. Of course the hypotheses might be refuted or require modification, but repeating this process many, many times is the surest way to achieve this challenging goal. Neuroscience is now thought to be nearing the detection of the mechanisms of the human mind, thereby responding to the demands of modern society and giving neuroscientists an uplifting feeling by meeting an academic Grand Challenge, and also the genuine thrill as a responsible scholar.

Along these lines, in order to secure these interactions we are planning a variety of collaboration and joint events in cooperation with the International Congress of Psychology. To understand the brain and mind is to understand the "human". If we could create novel approaches, hitherto impossible, to translate the workings of the mind into the vocabularies of conventional natural scientific functional molecules and neural circuitry, we could gain the insight needed to rapidly overcome a variety of mental problems that modern society is facing – and thereby obtain sound brain and mind. I heartily hope that this joint meeting will become such an opportunity.

#### ■ Meeting Outline

1. Title Neuroscience 2016

(The 39th Annual Meeting of Japan Neuroscience Society)

2. Theme be sound, brain and mind

3. Date July 20 (Wed) – 22 (Fri), 2016

4. Venue Pacifico Yokohama

1-1-1, Minato Mirai, Nishi-ku, Yokohama, Japan 220-0012

5. Objective and Significance of this Annual Meeting

Under the theme "be sound, brain and mind," this Meeting will gather the leading neuroscience researchers from across Japan and overseas together with the energetic young researchers who will drive the next generation of Japanese neuroscience. The Meeting aims to advance academic and research fields that will help uncover the mechanisms of the brain and the mind, spanning from fundamental molecular and cellular biology to clinical medicine and psychology, and to promote and inspire world leading research in these fields. We are also planning a range of interdisciplinary collaborations with ICP 2016 - the 31st International Congress of Psychology, to foster sound brains and minds and achieve a prosperous and fulfilled human society in the near future.

6. Program

- oPlenary Lectures
- Special Lectures
- OSpecial Program
- oTsukahara Award Lecture
- oTokizane Award Lecture
- Symposia
- Oral/Poster presentations
- oLuncheon Seminars
- Exhibition
- 7. Expected Number of Participants 3,500
- 8. Official Language Japanese / English

\*Organizers will arrange allocation of date and venue for seminar considering each applicant preference in preference column.

#### 11. Related Matters

#### (1) Equipment at the venue

Seminar fee provides standard equipment required for presentation (audiovisual equipment such as projector, screen and microphone), and staff for video, audio and lighting.

If any other equipment such as video recording or tape recording is required, charges will be incurred separately. Please contact the Secretariat.

#### (2) Program organization

Program organization will decided by Program Committee, and will be informed to seminar applicants by the Secretariat.

(3) Sponsor fee for luncheon seminars do not include the following. Actual amount will be charged as option expense by Secretariat (ICS Convention Design, Inc.) after the Meeting.

#### Option:

- 1) Lunch box for participants (with soft drink, tea)
  - \*As Luncheon seminar will be held around lunch time, please arrange lunch box.
  - \*Number to order will be decided by each applicant company.
  - \*Secretariat will confirm number of lunch box to order with applicant company, after deadline, and will take care of orders.
- 2) Personnel expense: operational staff (for announcement, time keeping, distribution of materials and lunch, guide)
- 3) Honorarium for presenters and chairpersons, transportation charge, and also food and drinks at briefing sessions.
- 4) Sign boards at venue entrance, name displays for chairpersons, presenters
- 5) Additional equipment: recording (audio, visual), equipment for simultaneous interpretation and at waiting rooms
- 6) Waiting room: room charge
- 7) Expense for operational management (10% of total amount for above charges) will be added to the total amount of option fees.
