

Call for Package Sponsorship

Date: July 20 (Wed) - 22 (Fri), 2016

Venue: Pacifico Yokohama

The 39th Annual Meeting of the Japan Neuroscience Society / Neuroscience 2016

President: Atsushi Iriki RIKEN Brain Science Institute

Greeting

be sound, brain and mind

Recently various "mental problems" have become a major interest in our society. To make our daily lives prosperous and happy, and to resolve and understand various problems we are facing, uncovering the mechanisms of the human mind is the major goal of neuroscience. This year the 39th Annual Meeting of the Japan Neuroscience Society and the 31st International Congress of Psychology will be held consecutively at the same venue. Under the theme of "be sound, brain and mind", top international and domestic researchers conducting the state-of-the-art neuroscience, together with Japan's next generation researchers, will take this as an opportunity to elucidate the mechanisms of the brain and mind through promotion of a wide range of neuroscience research fields, across clinical medicine and psychology, and to the molecular and cellular biological levels.

However, a gap still exists between the "mind" as a psychological phenomenon and the function of the "brain" as a biological organ. Because a human mind is unique and diverse, and changes through experience and one's life history, it matches poorly with the essence of modern natural science which pursues simple reductionism, reproducibility and universality. Notwithstanding, we all agree that our "mind" is produced by our "brain", and it is also human nature to pursue its understanding. Neuroscience has just reached a tipping point where it is within reach of lay people's expectations. We neuroscientists are trying to address it seriously.

In order to realize such an enterprise, it is necessary for researchers with different perspectives to face each other with mutual respect, and maintain active interactions; for example, assembling valid hypotheses and examining each one carefully through empirical experiments, and then feeding back the results to re-examine the original hypotheses. Of course the hypotheses might be refuted or require modification, but repeating this process many, many times is the surest way to achieve this challenging goal. Neuroscience is now thought to be nearing the detection of the mechanisms of the human mind, thereby responding to the demands of modern society and giving neuroscientists an uplifting feeling by meeting an academic Grand Challenge, and also the genuine thrill as a responsible scholar.

Along these lines, in order to secure these interactions we are planning a variety of collaboration and joint events in cooperation with the International Congress of Psychology. To understand the brain and mind is to understand the "human". If we could create novel approaches, hitherto impossible, to translate the workings of the mind into the vocabularies of conventional natural scientific functional molecules and neural circuitry, we could gain the insight needed to rapidly overcome a variety of mental problems that modern society is facing – and thereby obtain sound brain and mind. I heartily hope that this joint meeting will become such an opportunity.

Atsushi Iriki, President

The 39th Annual Meeting of the Japan Neuroscience Society RIKEN Brain Science Institute

Meeting Outline

1. Title	Neuroscience 2016
	(The 39th Annual Meeting of Japan Neuroscience Society)
2. Theme	be sound, brain and mind
3. Date	July 20 (Wed) – 22 (Fri), 2016
4	
4. Venue	Pacifico Yokohama
	1-1-1, Minato Mirai, Nishi-ku, Yokohama, Japan 220-0012
	http://www.pacifico.co.jp/english/

5. Objective and Significance of this Annual Meeting

Under the theme "be sound, brain and mind," this Meeting will gather the leading neuroscience researchers from across Japan and overseas together with the energetic young researchers who will drive the next generation of Japanese neuroscience. The Meeting aims to advance academic and research fields that will help uncover the mechanisms of the brain and the mind, spanning from fundamental molecular and cellular biology to clinical medicine and psychology, and to promote and inspire world leading research in these fields. We are also planning a range of interdisciplinary collaborations with ICP 2016 - the 31st International Congress of Psychology, to foster sound brains and minds and achieve a prosperous and fulfilled human society in the near future.

6. Program

Plenary Lectures
Special Lectures
Special Program
Tsukahara Award Lecture
Tokizane Award Lecture
Symposia
Oral/Poster presentations
Luncheon Seminars
Exhibition

7. Expected Number of Participants 3,500

8. Official Language Japanese / English

Package Sponsorship

Package Sponsorship

Neuroscience 2016 has 3 types of package sponsorship available: Platinum / Gold / Silver. Application deadline for package sponsorship: March 18 (Fri), 2016

Platinum		¥2,700,000 (excl. tax)
The package offers :		
Luncheon Seminar	x 1 Highest Priorit	y for date & room 1,300,000 ~ 1,700,000
Exhibition Booth (A)	x 5 Highest Priorit	y for booth allocation 1,250,000
Web Banner	x 1	200,000
Meeting Badge	x 5 (including parti	cipation in the reception) 100,000
	Total Value	2,850,000~3,250,000
Gold		¥2,100,000 (excl. tax)
The package offers :		
Luncheon Seminar	x 1 Higher Priority	r for date & room 1,300,000 ~ 1,700,000
Exhibition Booth (A)	x 2 Higher Priority	r for booth allocation 500,000
Web Banner	x 1	200,000
Meeting Badge	x 3 (including parti	cipation in the reception) 60,000
	Total Value	2,060,000 ~ 2,460,000
Silver The package offers :		¥1,500,000 (excl. tax)
Luncheon Seminar	x 1 Priority for dat	e & room 1,300,000
Luncheon Semmar	x 1 Priority for dat	e & 100111 1,300,000

Building of Deminiar	<u> </u>		1,000,000
Exhibition Booth (A)	x 1	Priority for booth allocation	250,000
Web Banner	x 1		200,000

Total Value

1,750,000

Please fill out the application form and send it to Secretariat below by March 18 (Fri), 2016.

Neuroscience 2016 Secretariat

c/o JTB Communication Design, Inc. (former ICS Convention Design, Inc.)

Celestine Shiba Mitsui Bldg. 3-23-1 Shiba, Minato-ku, Tokyo 105-8335, Japan

FAX: +81-3-3452-8550 E-mail: neurosci2016@jtbcom.co.jp

*Contact information has been changed as mentioned above from April, 2016.

* Priorities will be given on a first-come-first-served basis within each type.

* Additional booths other than the one included in package are available at JPY250,000 (excl. tax) per booth.

* Please refer the details of each benefit to following pages.

The 39th Annual Meeting of Japan Neuroscience Society / Neuroscience 2016

Application form for Package Sponsorship

For application and inquiry :

Neuroscience 2016 Secretariat

c/o JTB Communication Design, Inc. (former ICS Convention Design, Inc.) Celestine Shiba Mitsui Bldg. 3-23-1 Shiba, Minato-ku, Tokyo 105-8335, Japan FAX: +81-3-3452-8550 E-mail: neurosci2016@jtbcom.co.jp *Contact information has been changed as mentioned above from April, 2016.

We agree with the intent of this meeting, and apply for package sponsorship as follows:

Deadline of submission: March 18 (Fri), 2016

				Month	Day	, Year
Company Name						
Address						
Contact Person	Mr./Ms.		Department			
Tel			Fax			
E-mail						
	Туре	Fee	Nui	mber	Total	(excl. tax)
Outin	🗆 Platinum	JPY2,700,000				
Option	🗆 Gold	JPY2,100,000				
	□ Silver	JPY1,500,000				
		Date Preference			Name of	Seminar
Seminar Request	1st preference	July	Luncheon	Luncheon Seminar		
itequest	2nd preference	July	Luncheon	Luncheon Seminar		
Remarks						

* Priorities will be given on a first-come-first-served basis within each type.

- * Additional booths other than the one included in package are available at JPY250,000 (excl. tax) per booth. If you need electricity supply, separate application is required.
- * Please refer the details of each benefit to the Neuroscience 2016 Prospectus.
